OBJECTIVE

Full Stack Developer with experience in building responsive web applications. Previously worked as a Full Stack Development Intern, leveraging expertise in frontend and backend technologies to deliver seamless and user-friendly solutions. Passionate about solving problems and contributing to innovative projects in collaborative team environments.

EDUCATION

Master of Computer Application(MCA)

2019-2022

Madhav Institute of Technology and Science, Gwalior, Madhya Pradesh

SKILLS

Java, JavaScript, C/C++, HTML, CSS, React, Node.js, Tailwind CSS, Redux, Git, GitHub, Jenkins, CI/CD, REST Api, Azure DevOps, Tomcat, Figma, MySQL, PostMan, MongoDB, Microsoft Azure (Beginner)

EXPERIENCE

1. CIMET (Jaipur, India)

Sept 2024 - Nov 2024

Position: Full stack developer

- Developed and maintained front-end features using JavaScript and React, ensuring responsive and interactive user interfaces.
- Collaborated with the development team to design and implement scalable full-stack solutions using modern web technologies.
- Assisted in building reusable components and libraries to improve efficiency and code reusability across projects.
- Integrated APIs to fetch and display dynamic data in React applications, handling asynchronous operations with fetch and axios.
- Participated in code reviews to ensure adherence to best practices and high-quality code standards.
- Debugged and optimized front-end code to improve performance, accessibility, and usability.

2. Atos Syntel (pune, India)

Aug 2022 – June 2023

Position: Associate Consultant

- Java Development: Mastered full-stack development using Core Java (JDK 6, 7, 8) and Hibernate, enhancing application performance. Executed a comprehensive Java capstone project with advanced database connectivity.
- Server Management: Configured and managed Tomcat servers, optimizing deployment processes and improving system reliability.
- CI/CD Implementation: Designed and implemented CI/CD pipelines using Microsoft Azure, DevOps, and Jenkins, reducing deployment time by 30%.
- Agile Collaboration: Collaborated in Agile teams, contributing to sprint planning and daily stand-ups to ensure timely project

3. SNS System Pvt. Ltd. (gwalior, India)

Jan 2022 – April 2022

Position: Developer Intern

- Automation and Efficiency: Developed automation scripts using Deluge for Zoho Campaigns and CRM, increasing workflow efficiency by 25%.
- Custom Solutions: Designed and implemented custom solutions within Zoho CRM, improving data management and user experience.
- Landing Pages: Created and optimized landing pages, enhancing user engagement and conversion rates.

Certifications & Achievements

- Solved 200+ DSA/Coding questions on geekster platform.
- Participated in various Coding contests organized by the platform.
- Worked on various projects like Thread Clone, Amazon Clone etc.
- Technical Stack Learned: HTML, CSS, JavaScript, Bootstrap, SQL, React, MongoDB and Java.

Certifications:

• Postman API Fundamentals Certification

• Microsoft Azure Fundamentals (AZ-900) Certification

PROJECTS

- 1. Thread Clone | React, Node.js, WebSockets, MongoDB Link
- Engineered a full-stack social media application with real-time user interactions and responsive design.
- Implemented secure user authentication, dynamic posting, and commenting features.
- Utilized WebSockets for instant updates and MongoDB for efficient data management
- 2. Amazon Clone | React, Redux, firebase Link
- Developed a responsive e-commerce platform replicating key functionalities of Amazon.
- Integrated secure user authentication, real-time product listings, and shopping cart features.
- Ensured cross-device compatibility and optimal user experience through responsive design.
- 3. Al Bot | HTML, CSS, JavaScript, API Integration Link
- Built an AI bot capable of real-time data retrieval using the Gemini API. This project demonstrates my proficiency in API integration and asynchronous programming with HTML, CSS, and JavaScript.
